

Product Highlights

Transform Your Mobile Device into a Baby Monitor

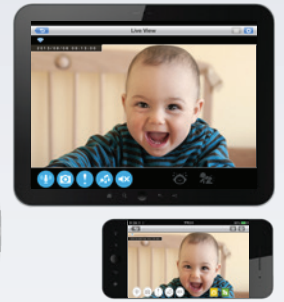

Whether you're at home or away at work, you can conveniently watch over your baby on your smartphone, tablet or computer

Full-Featured yet Simple to Use

The free mobile app gives you effortless access to advanced features like 2-way audio², notifications, lullabies, snapshots, video recording, and more

Perfect at Home or Away

Mount the baby monitor in the nursery at home or take it with you when going on a family trip; it's easy to keep an eye on your child no matter where you go

DCS-800L

EyeOn™ Baby Monitor Junior

Features

Baby monitor

- Night vision with infrared LEDs that turn on automatically when it gets dark
- 802.11n wireless lets you place the baby monitor anywhere
- Can be powered by an external USB battery¹
- 5 different gentle lullabies built-in
- Interchangeable yellow, blue and pink accent colour rings

Intelligent Baby Monitoring

- Sound detection alerts you to loud noises, such as your baby crying
- Motion detection lets you know if the baby monitor detects movement
- Notifications can be sent to your mobile device when sound or motion is detected
- Two-way audio lets you hear your baby and allows you to respond and calm your child²

Monitor from your Mobile Device or Computer

- Uses the free mydlink™ Baby Monitor app for iOS and Android devices
- The mydlink™ Baby Monitor app helps you set up your device and gives you easy access to all functions
- Monitor from your computer through the secure mydlink™ web portal

Keep an eye on your little one with the DCS-800L EyeOn™ Baby Monitor Junior. This portable baby monitor transforms your mobile device into a versatile, yet easy to use baby monitor. Connect to the baby monitor wirelessly or over the Internet so you can check on your infant no matter where you are. It includes a wide array of features to help you care for your child, including night vision, motion and sound detection. It can even play gentle lullabies to help ease your baby to sleep!

Peace of Mind, Anywhere, Anytime

The EyeOn™ Baby Monitor Junior is specially designed to make it easy for you to care for your baby. Its versatile all-day monitoring turns on night vision automatically when it gets dark, giving you a clear picture day or night so you can keep an eye on things anytime. It's perfect for use in the home, or even when you're away; it's mydlink™-enabled, which means that you can check on your baby remotely and securely over the Internet.

Sophisticated Technology to Keep You Informed

The EyeOn™ Baby Monitor Junior can send you notifications you when your baby needs your attention. It can detect movements and sounds, such as baby crying, and alert you immediately. Not only can you see and hear your infant, but you can also comfort them with the sound of your voice through two-way audio².

Sound and Motion Detection

Perfectly Portable for Instant Monitoring Anywhere

You can take the EyeOn™ Baby Monitor Junior with you when travelling with your child, even when there is no available Internet connection. Just connect your mobile device to the EyeOn™ Baby Monitor Junior's wireless network for instant local monitoring, making it perfect for family holidays or just visiting friends. You can even connect it to an external USB battery¹ for total portability!

Setup in 3 simple steps!

Day & night vision

2-way audio

See up to 5m in the dark

Digital zoom up to 4x from your mobile device

Check in on your baby using your smartphone or tablet

Super Simple to Use

Getting started is quick and easy; the free mydlink™ Baby Monitor app for iOS and Android mobile devices not only guides you step by step through the setup process but also gives you an easy to use interface for all the advanced features of the EyeOn™ Baby Monitor Junior. Check on your baby at a glance, pinch to zoom in and out with ease or play one of five gentle lullabies to soothe your child. You can even take snapshots and video clips and save them directly to your mobile device!

Just download the free mydlink™ Baby Monitor app for your smartphone or tablet and you can quickly and easily setup and view your EyeOn™ Baby Monitor Junior from anywhere with a wireless or 4G LTE/3G connection. You can also log onto the secure mydlink™ web portal on your computer to keep an eye on what matters most.

Download the free mydlink™ Baby Monitor app and start monitoring.
