

CABLE STRIPPER

NTS-001

NTS-002

This stripper is easy and safe to use, punch down wires on modular connectors. Strip twisted-pair UTP/STP data cables and wires and terminates wires into 110 blocks. It's great for CAT-5e, and CAT-6 data cables. This wire stripper is small and exquisite, which is very convenient and practical. It cuts cables with different thickness and cuts very clean and takes only few seconds small and simple tool for cable or wire stripping.

KEY FEATURES

- For round and flat cable
