Step 4

After you click on the “Manage Demos”, click on  “Generate Demo License” to generate demo license file.

The screenshot shows the GajShield Partner Portal interface. At the top, the header reads "GAJSHIELD Partner Portal" with a notification bell icon on the right. A navigation menu includes: HOME, MANAGE RESELLER KEYS, MANAGE USERS, MANAGE DEMO, MANAGE PROFILE, KNOWLEDGEBASE, OFFERS, NEWS, CONTACT US, and LOGOUT. The main content area features a red icon of a computer monitor with a cursor, labeled "Manage Demos". Below this, a text box states: "Below table provides a list of ongoing customer demos. You can also use this form to generate demo license for your customer, using the demo keys. Note: Click on the below icon to generate demo license using the provided demo key." Underneath is a blue key icon labeled "Generate Demo License". A red header bar reads "CUSTOMER DEMOS". Below this bar, there are input fields for "Serial Number:" and "Model Number:", followed by a "Submit Query" button.

Step 5

To generate the demo license reseller will have to type the serial number & demo key provided with the appliance or by email.

The screenshot shows the GajShield Partner Portal interface for the "Create Demo License" page. The header and navigation menu are identical to the previous page. The main content area features a red icon of a computer monitor with a cursor, labeled "Create Demo License". Below this, a text box states: "Use this form to register demo keys of an appliance. Once registered, you can then download the license file to be applied on customer GajShield firewall appliance." The form includes input fields for "Demo Key:" and "Serial No:", followed by a "Submit" button.

Option 2:- Create login account for engineers, to use portal.

Step 1

Admin account can create an engineer login by clicking on “Manage Users”, which the engineers of the reseller will use to generate demo license, firmware download & Knowledgebase and many more such services.
